

# Done

## Built to Spill

Loneliness is getting hard to perceive  
Seems it never comes or it never leaves  
Every day we step into some deceit  
This should bring the ill-defined to their feet It's forgiven, it's all for you  
All your problems will come true  
Said it once, I'll say it once again  
This won't make you happy All I want is you to make up your mind  
To come on down and linger here for a while  
All I know is what I wanted to say  
Disappeared and has yet to be replaced It's forgiven, it's for you  
All your problems will come true  
It's already done, it's already done  
It's already done
