

A Love from Outer Space

[David Byrne](#)

She loves me she loves me she loves me
A love from outer space
She loves me she loves me she loves me
A love from outer space
She loves me she loves me she loves me
A love from outer space
A love from outer space
It's true oh I know where she's coming from
Space is where we both belong
Got to tell her in this song
This time nothing can go wrong Take a ticket to ride this space express
Meet the girl in the star dress
A dress that I can never guess
I just can't wait for her caress
She comes from milky way
She came to earth for my birthday
We worked hard we nearly get to say hi Shalalalalalala hoo She loves me she loves me she loves me
A love from outer space
