## Asbel

Hands will never move across the face that's on the wall  
Every nowadays  
A place where we can fall  
Nobody will miss a thing, they leaved us all alone  
Hold our hands together til the last of us have come

(Chorus)

We could've been bad  
Wrong, we had a chance  
We could've been sad  
For just a little bit longer  
Just a little bit longer

Dirty will love this turn  
Move in to kings and queens  
Probably watching over all  
The mist that we have breathed  
Tie me to your promises  
And we won't let you down  
Stronger than the distance we can turn it all around

(Chorus x2)

We could've been bad  
Wrong, we had a chance  
We could've been sad  
For just a little bit longer  
Just a little bit longer  
Just a little bit longer
