Four Walls

Broods

You walked in and said I've got some news
I didn't say all I wanted to
You know I told you that I wasn't scared but I lied
You told me baby, I only think of you
And I said all I've got is a bunch of sad stories
And I told them all before the night was through
And you cried, oh, but hear now
That I'm trying hard to make you love me but I don't wanna try too hard
And I'm trying hard to take it lightly but I'm here nowThose four walls now are the only place where I can breathe out
Those four walls now are home
Those four walls now are the only place that I can feel
Those four walls now are homeI wanna make you feel now how I feel when I'm, missing it to love songs
I wanna take you to the peak of everything, yet you are
You're everything I need to night
And I'm trying hard to make you want me
But I don't wanna try too hard
I was thinking you got by what you came for
But you're here nowThose four walls now are the only place where I can breathe out
Those four walls now are home
Those four walls now are the only place that I can feel
Those four walls now are homeFalling at hand of the perfect man
Falling at hand of the perfect manThose four walls now are the only place where I can breathe out
Those four walls now are home
Those three words now are the only thing that can save me
Those three words now are homeFalling at hand of the perfect man
