

# Real Love

Macy Gray

I know why you hesitate  
Burned by all the fake  
Lovers that you had before  
They push you down and gave you hate  
But don't believe the things they say  
'Cause, baby, you're a genius, you're a star 'Cause I would walk a million miles for you  
Just to visit you, baby  
And I'll show you a trillion stars  
The moon is ours Darling, I am everlasting  
I'm a sure thing  
I'm a master  
Giving you real, real, real love And it shows for the asking  
About everything after  
Giving you real, real, real love Baby, I will kiss you  
Even when you have the flu  
I'll be good to you when you're bad  
Love you, love you, baby  
Laying down and save you  
I'm your superhero, I'm a fan And I would walk a million miles for you  
Just to visit you, baby  
And I'll show you a trillion stars  
The moon is ours Darling, I am everlasting  
I'm a sure thing  
I'm a master  
Giving you real, real, real love And it shows for the asking  
About everything after  
Giving you real, real, real love Lonely baby, I have to be where you are  
We are about to shoot to the sun  
Jumping my first car  
Baby, I'll take you forever  
I'm making you mine, baby, for life Darling, I am everlasting  
I'm a sure thing  
I'm a master  
Giving you real, real, real love And it shows for the asking  
About everything after  
Giving you real, real, real love Giving you  
Giving you  
Giving you  
Giving you Giving you

Giving you  
Giving you  
Giving you Giving you  
Giving you
