

# Down The Road

## Plain White T's

Lost myself again and didn't care I was missing  
Said goodbye to friends and drove away  
I just don't belong in a town where no one listens  
Even if I'm wrong I'll find a way Gotta get away from here  
Find a way to disappear  
Say goodbye to everything and everyone I know  
Gotta go and leave this town  
All it does is bring me down  
I just wanna tell my friends no matter where I go  
I'll see ya down the road Lost myself again and no one knew I was missing  
Said goodbye to dad and his new wife  
Stuck around this long, now I'm sick and tired of wishing  
Even if I'm wrong, I'll still be right Gotta get away from here  
Find a way to disappear  
Say goodbye to everything and everyone I know  
Gotta go and leave this town  
All it does is bring me down  
I just wanna tell my friends no matter where I go  
I'll see ya down the road I'm sick of dreaming I would rather stay up all night  
And live my own life  
Don't worry about me Gotta get away from here  
Find a way to disappear  
Say goodbye to everything and everyone I know  
Gotta go and leave this town  
All it does is bring me down  
I just wanna tell my friends no matter where I go  
I'll see ya down the road
