

# Long Haired Lady (Live at Winterland 1970)

## Quicksilver Messenger Service

I find my mind falling like rainbows  
Casting sweet shadows over the long [time moon glow?]  
Unicorns prancing in my mind, [aligned?]  
Sweet lady dancing here and I keep the time  
I love you  
My long-haired lady Following gardens down to some soft stream  
Falling down rivers, swirling on by downstream  
Sweet honey dripping in the afternoon  
High, lonely, flying, cries the sad, silver loon  
I love you  
My long-haired lady  
Do you believe love at first sight lasts forever?  
And can you know I loved you for life, in this hour?  
And sometimes it gets a little shaky, huh  
That's when you got to carry on; it'll be all right  
It will be all right  
My long-haired lady Fairy moon maiden, won't you come by me  
I have been waiting by the long, dark, cold sea  
My ship is laden with sweet gifts for thee  
My lovely lady, won't you dance by me  
I love you  
My long-haired lady  
Do you believe love at first sight lasts forever?  
And can you know I loved you for life, in this hour?  
And sometimes it gets a little crazy, huh  
That's when you got to hang on to me; it'll be all right  
It will be all right  
It'll be all right  
My long-haired lady
