

Game Don't Wait

Warren G

Yeah, I come to find out, all these years, man
The game won't wait no matter who you are
Where you are or how you are, the game won't wait
It's a cold thang, it's a cold game but you know how it is
Shit don't stop because the game don't wait
(The game don't wait)
Shit don't stop because the game don't wait
(The game don't wait)
Shit don't stop because the game don't wait
(The game don't wait)
Shit don't stop because the game don't wait
(The game don't wait)
Shit don't stop because the game don't wait
Now all I, see is we the LBC, 213's
Cheese and please and the reason the season
The click's off the heezy, Mr. Warren G Z Gots
To make it easy, for Snoop D Z
They come back and drop raps and make snaps so easy
The most hunted, and most wanted
With a pocket full of hundreds, you know how we run it
Snoop D woop pass the M-I-C anticipation 213
We contemplate, and regulate, now we got the game tight
It's money to make, the game won't wait but you can wait for the game
Worldwide tour, with skirts screamin' our name
The hits don't stop because the game won't change
All we goin' to do is maintain, maintain
The hits don't stop because the game don't wait
I got no time for no payin' much rate
I gotta go out and buy some brand new clothes
Change my socks before they reveal my toes
The hits don't stop because the game don't wait
And the girls don't stop because the dick is straight
Let me teach you what I already know
The hits don't stop so it's time I go
(The game don't wait)
Shit don't stop because the game don't wait
(The game don't wait)
Shit don't stop because the game don't wait
(The game don't wait)

Shit don't stop because the game don't wait
(The game don't wait)
Shit don't stop because the game don't wait
Now it's the second time around ain't no phonies any fakes
Let me holla at cha tryin' to snake my stakes

You older than me, you say OG, you almost 40
Tryin' to stay young and sporty
Sport you roll me those and stay in ya place
Before you see all-stars, right up in ya face
Youngsta never bite the hand that's feeds you
Proceed to get back to your folks, the loccs that need you
We do, we always keep it on the true
213, that's the name of the crew, it's true
That the dirt I did as a kid got me caught up
But I was brought up with the M-O if a D-O, so play your info
Youngster I been doin' this before I hit the radizzo
Snoop D Z is off the heezey, so you can make mine, extra cheesy
The crew's a twist 'cuz it consists of 3 riders, eastsiders, one love
The hits don't stop because the game won't change
All we ever wanted was a small time rap chain

(The game don't wait)

Shit don't stop because the game don't wait

(The game don't wait)

Shit don't stop because the game don't wait

(The game don't wait)

Shit don't stop because the game don't wait

(The game don't wait)

Shit don't stop because the game don't wait

The shit keeps movin' it'll never stop

Long as we able to make hit roccs

Long as a papa can't stop my flow

The shit don't stop I gotta make my doe

The shit don't stop if you intend to take

The shit don't stop it's companies we break

Take all the money and toss them hoes

The shit don't stop that's just how it goes

(The game don't wait)

Shit don't stop because the game don't wait

(The game don't wait)

Shit don't stop because the game don't wait

(The game don't wait)

Shit don't stop because the game don't wait

(The game don't wait)

Shit don't stop because the game don't wait

(The game don't wait)
Shit don't stop because the game don't wait
(The game don't wait)
Shit don't stop because the game don't wait
