

Halabamalujah

Lucas Hoge

Hey Baby Chewin' on that straw, drivin' me crazy
Dryin' your hot pink fingernails in that box fan
Hot Dam they grow em' different down here I didn't even know I was lost
But now I'm found here Halabamalujah, a little dab'll do ya
Girl I wish I knew ya but I don't
But I will, Don't think I won't
Take you on a little southern slow ride
Show me how you roll tide Hey Baby, how do ya'll cool off its hot as Hades
There's gotta be a place where can slide off in the water
Make it hotter, tell your little sister that she can't come I don't know your name girl
But I sure know where you came from Halabamalujah, a little dab'll do ya
Girl I wish I knew ya but I don't
But I will, Don't think I won't
Take you on a little southern slow ride
Show me how you roll tide Just south of heaven, go tell it on the mountain
Just south of heaven girl you got me shoutin' Halabamalujah, a little dab'll do ya'
Girl I wish I knew ya but I don't
But I will, Don't think I won't
Take you on a little southern slow ride
Show me how you roll tide
