Don't Let It Die

Hurricane Smith

The mountainside, the flower grows
The riverside where the water flows forever
The jungle life of mystery
The wide and graceful history of lifeDon't let it die
Don't let it die
The tiger's free, the kangaroo
It's up to me and up to youWhat we see is what we choose
What we keep or what we lose forever
The world is ours to tear apart
But what if it's too late to start again?Don't let it die
Don't let it die
Or say good-bye - amen
