

# Top of My Head

David Wilcox

The top of my head shines through my haircut  
Even when I brush, shape and style  
Top of my head smiles at the young man  
Telling me I must have been alive awhile  
The top of my head shows up in pictures  
Don't it make me look so strange  
I guess I only see my used-to-be  
And everybody's seen me change  
On the top of my head I got a suntan  
My top's down for the sunny day  
It's so strange to be a grown man  
Wonder how I got that way  
I can't believe all that time I wasted  
Worried 'bout the hair I lack  
Sometimes I catch myself lean in the mirror  
Wonderin' if it's growing back  
On the top of my head  
The top of my head  
Never mind telling me all about distinguished company  
Yeah well, well sure it looks great on them  
But that's a few great men  
Who made a difference in history  
See it only looks right on a great man  
With a lifetime of great things done  
But time has got tight, it's gotten late, man  
I'd like to think that I've just begun  
But there's no sense riding in a big black stetson  
It's nothing I can hide away  
And they say every hair on the head is a counter  
But so is every single day, anyway  
On the top of my head  
Top of my head  
The top of my head
