ACID REIGN

Acid State

Things have never been this laughable
I can tell that face you've shown is full
You're always standing on bullets of sentiment
...She can hide a laugh inside,
But he could never treat you rightThough I can't give a fuck if it's truthful
I'd never want to be caught
Can this cut across a generational loss?The lesson's never kind
Immoral only youth will find
The lesson's never kind
Immoral only youth is mineWait for me, I'm wondering what you find
Listen but don't follow as if you're blind
I know I can be so critical at times
When you're delusional
leaving your loved ones behindThough I can't give a fuck if it's truthful
I'd never want to be caught
Can this cut across a generational loss?The lesson's never kind
Immoral only youth will find
The lesson's never kind
Immoral only youth is mine
