

Next Time

Curtis Harding

we could've went to heaven
what d'you mean you played
now I'm somewhere else, out of space
i'm staring in the mirror
i broke the fucking glass
now i'm somewhere else
living in the past
we would travel alone
Be away from you with the leaving faith
and so far ???
I would see you there
We could start again as a love affair
but just friendWhoooa
whooa
Until next time. x4They say it's never over
they say it's neither fair
I don't know that's true
I don't even care
Cause I am focused on my future
I settle all the past
I done changed some things girl
Since you've seen me last
we would travel alone
Be away with you with the leaving faith
and so far ??
I would see you there
We could start again as a love affair
but just friendWhoooa
whooa
Until next time. x4
