

Animalistic

Palm Trees & Power Lines

Well she's a wild one
With a body hotter than the sun
She'll wear you out some
And make you physically come undone
Woah
She's got the poison
That get's anyone's skin for fun
It's so ferocious
Like carnivorous stealth in motion, oh sh*tMy mind's on overdrive
She's got me thinking about her all the timeShe's so animalistic
Makes me go ballistic
Wild for her lipstick
Never should have kissed it
Animalistic, makes me go ballistic
She's every Adam's Eve and I know, woahMascara
A baby butterfly holds her air up, up and away
Like Jane of the jungle
In rain and in thunder she reigns aloneMy mind's on overdrive
She's got me thinking about her all the timeShe's so animalistic
Makes me go ballistic
Wild for her lipstick
Never should have kissed it
Animalistic, makes me go ballistic
She's every Adam's Eve and I know, woahTrack her down without her body you'll be
Off the ground, she's anybody's
One night prowler, you're feeling her up
She's just feeling you out
She's so animalistic
She's animalistic, yeah
She's so animalistic
She's animalistic
She's animalisticAnimalistic
Makes me go ballistic
Wild for her lipstick
Never should have kissed it
Animalistic, makes me go ballistic
She's every Adam's Eve and I know, woah
