

# Beast Within

## Katra

I don't know how I got here  
But we cannot get out  
I'm surrounded by strangers  
As the music starts to pound  
I see the bodies slowly swayin?  
Movin? side to side  
I feel the animal is rising  
As I slowly come alive  
So everybody starts to move now  
I wanna see you all give way  
I wanna tear this place apart tonight  
And have you thank me for my rage  
Tell me what you came for  
Can I give you just a taste?  
I wanna see you lose your fucking minds  
And rip apart this place  
Let me see you move your bodies [Repeat]  
I'll tear you apart  
I'll feed off your heart  
I wanna see your bodies grinding just for me  
I'm just what you need, the perfect disease  
Don't you wanna turn the beauty into the beast?  
Endorphins start to swell now  
As I step up to my throne

I feel the monster caged inside of me  
Screaming through my bones  
I wanna see you start to sweat now  
I wanna see you lose your minds  
I wanna feel you all from deep within  
Swayin? back and forth all night  
Let me see you move your bodies [Repeat]  
I'll tear you apart  
I'll feed off your heart  
I wanna see your bodies grinding just for me  
I'm just what you need, the perfect disease  
Don't you wanna turn the beauty into the beast?  
Let me see you bleed  
Let me hear you scream

(Hey-oh, he-ey, oh)  
Let me see you move  
Let me hear you say (hear you say)  
I see the bodies slowly swayin?  
Movin? side to side  
I feel the animal is rising  
I?ll tear you apart  
I?ll feed off your heart  
I wanna see your bodies grinding just for me  
I?m just what you need, the perfect disease  
Don?t you wanna turn the beauty into the beast?
