Genesis 12a

Cky

A new project unveiled not by man
Genesis 12/a is underway
The seed has been planted, the forming begins
Now, mankind, a new way to live
All around you can breathe
Genesis is now complete
Bitter cold bites the flesh
A world so new and fresh
All along we took advice as you were taking all of us
To genesis

Genesis 12/a
Now the magic begins with the nerve in its place
While you're waiting our hearts bleed your name
In a world like ours pregnant with disease
You're taking all of us!
What a long long time
You'll have to wait
For earth to die
And genesis to create
