Kathy's Song (Single Version)

Apoptygma Berzerk

Oh my love, it's time
You know how it feels
You read between the lines
You know me better than I do
I lost again, my friend
You know I'm not a saint
You knew it all this time
Still you've been waiting for me here...

Oh my love, it's time
You know how it feels
You read between the lines
And know me better than I do
I'm lost again my friend
You know I'm not a saint
You've known it all this time
Still you've been waiting for me here...

Come lie next to me
Know why, you and me are one
Come lie next to me
No lies, you and me are one

(Please) Come lie next to me
Know why, you and me are one
Come lie next to me
No lies, you and me are one...

Come lie next to me
Know why, you and me are one
Come lie next to me
No lies, you and me are one

(You know I'm not a saint...)

You know I'm not a saint...
You know I'm not a saint...
