

# Counting The Days

## Good Charlotte

Wake up, go to work  
Come home, it's not working  
We've been living our whole lives  
On a system that is broken Your words, I hear them  
They're sharp, can't get near them  
We've got one last chance  
One more time to make this happen We got one time, time to get this right  
Two times and you know it's not my style  
Three's company, just you and me, we need to figure this one out  
Four letter words are all you said  
Five minutes later we're in bed  
Can't count on you to love me  
But I can count the days since you've been gone Break up, I come home  
I realize, that it's not working  
You're gone, it echoes  
I missed the noise of all our fighting  
And you know that I don't mean a word I say  
And I know that you don't wanna stay away  
How long am I gonna be counting the days you're gone We got one time, time to get this right  
Two times and you know it's not my style  
Three's company, just you and me, we need to figure this one out  
Four letter words are all you said  
Five minutes later we're in bed  
Can't count on you to love me  
But I can count the days since you've been gone Ever since I saw you, there was no one else  
Just you and me, you were all that I could see  
But I got this problem, don't know how to say what I mean, what I mean We got one time, time to get this right  
Two times and you know it's not my style  
Three's company, just you and me, we need to figure this one out We got one time, time to get this right  
Two times and you know it's not my style  
Three's company, just you and me, we need to figure this one out  
Four letter words are all you said  
Five minutes later we're in bed  
Can't count on you to love me  
But I can count the days since you've been gone Wake up, go to work  
Come home, it's not working  
We've been living our whole lives  
On a system that is broken
