

Tiger Teeth

WALK THE MOON

Give in, give in. I want you back
One heart, one too many to stomach
Love bites so deep, and we got tiger teeth If you come around, if you come around again
You better not come in, you better stay outside
Cause I can't hold my ground, I can't hold my ground, I can't
Not if you look me in, you look me in the eyes Oh, tiger in my heart again
When you swallow someone whole, you are bound to choke
Well, I guess we can never be friends
I ate you up the day we first spoke Give in, give in. I want you back
One heart, one too many to stomach
Love bites so deep, and we got tiger teeth
Give in, give in. I want you back
Keep count, one too many to stomach
Love bites so deep (and we got tiger teeth)
Don't you call me on the telephone
Don't make plans with my friends
I think that it's best if you leave me alone
When I'm with you I just want to play pretend Well, tiger in our hearts again
When you swallow someone whole, you are bound to choke
Well, I guess we can never be friends
I ate you up the day we first spoke Give in, give in. I want you back
One heart, one too many to stomach
Love bites so deep, and we got tiger teeth
Give in, give in. I want you back
Keep count, one too many to stomach
Love bites so deep, and we got tiger teeth If you only take one step closer
I could reach the zipper on your dress
We're leaning out over the water
And we're holding our breath
Well, tiger in our hearts again
When you swallow someone whole, you are bound to choke
Well, I guess we can never be friends
I ate you up the day we first spoke Give in, give in. I want you back
One heart, one too many to stomach
Love bites so deep, and we got tiger teeth
Give in, give in. I want you back
Keep count, one too many to stomach
Love bites so deep, and we got tiger teeth Love bites so deep (and we got tiger teeth)
