

# Divine Sorrow (feat. Avicii)

Wyclef Jean

Dearie blossom  
I've gone down to old rock bottom  
Now I know the love in my heart was true!  
Divine sorrow  
I thank you for the joy that follow  
Back then my friend  
If only you knew  
It is harder when you love beyond belief  
But I'm a fool to let you go  
So this is for you my love! We will never, we will never have a change of mind  
We belong together!  
We will never, we will never be the weary kind  
We sing our sorrows away!  
We sing our sorrows away!  
We sing our sorrows away! Divine blessing  
I wish I would've heard your lesson  
Now I know your words were my only truth!  
I'm just venting  
Or maybe I'm done confessing  
Back then my friend  
If only you knew  
It is harder when you love beyond belief  
But I'm a fool to let you go  
So this is for you my love! We will never, we will never have a change of mind  
We belong together!  
We will never, we will never be the weary kind  
We sing our sorrows away! We can make it through Judgment Day  
We won't go fading away  
All I ever know must be Heaven where you come from  
We can make it through cloudy skies  
By your side I feel alive  
All I ever know must be Heaven where you come from, yeah!
