

Harlot's Web

Star Screem

Im in love with your art
Youre exploding in my heart
Now listen to me babe, soon you will be seeing stars
Ive forced her away now, coz Im too scared to lose you
Happiness, it hurts me
Now I really want to drown in you Oh no, I can feel that Im in love
Oh no, I can feel that Im in love
You feel trapped like youre in a Harlots web
Oh no, I can feel Its not enough Come back to mine baby
A sinner after my own heart
You make days go faster you make a day never start
A proof runs through my blood stream a proof that we should never part
Im reading all your lies
In the mirror youre a work of art Oh no, I can feel that Im in love
Oh no, I can feel that Im in love
You feel trapped like youre in a Harlots web
Oh no, I can feel Its not enough Now listen to me, Ive got something to show you
Im going to show you the way to the ##### at the end of the rainbow. Oh no, I can feel that Im in love
Oh no, I can feel that Im in love
You feel trapped like youre in a Harlots web
Oh no, I can feel Its not enough
