

# Ice Cold Man (W. Lee Dorrian)

## Probot

Vampires of this earth hungry dying of thirst  
Lifeblood in short supply  
Black skies red watching eye  
Burning into demise  
As all light slowly dies  
Seeds of man's decay have  
Grown to take away  
The sacred gift of life  
Mother nature cries as  
Darkness fills her eyes  
Yes we are blind, too blind to see  
Our tombstone destiny Ice cold man watches earth die  
Eternal winter takes its reign  
Devoid of light filled with pain  
Ice cold man watches earth die  
Bleak the atmosphere  
Freeing warmest tears  
The earth a ball of ice  
Bodies frozen cold glacier heart and soul  
All warmth has long since died  
In his arctic hearse man rides death universe  
For one final time through black frosted sun  
Into oblivion Ice cold man watches earth die  
Eternal winter takes its reign  
Devoid of light filled with pain  
Ice cold man watches earth die  
Beneath a veil of black ice  
He sees now hell once paradise Ice cold man watches earth die  
All love lost, lost without a trace  
Behind his, frozen empty face  
Defunct eyes, cold as arctic ice  
Ice cold man, pays the final price  
Ice cold man, watched the earth die  
Ice cold man, ice cold man  
In his arctic hears man rides death universe  
One final time through black frosted sun  
Into oblivion
