Keep Him

Another Idiot

So long, good night
I wish i knew that this would be
Our last time
(Time)
Oh take me back to april and i'll be fine
To memories you left in the backseat of my mind
(My mind)

And she don't care at all
(Same old story)
Left out in the cold
(And she forgot me)
I lost it all

Take my breath
Cause that's all that is left
All you can remember is what i cant forget
But all that matters is if you still tell yourself:
I guess i can keep him
I guess i can keep him

So long this time
im gonna lock my door and stay inside
(inside)
But dont take me back, just leave me and I'll be fine
Cause I won't survive this one more time
(time)

She dont care at all
(Brand new story)
Spring turns to fall
(When he was sorry)
I lost it all

So take my breath
Cause that's all that is left
All you can remember is what i cant forget
But all that matters is if you still tell yourself:
I guess i can keep him

I guess i can keep him

Take my breath
Cause that's all that is left
All you can remember is what i cant forget
But all that matters is if you still tell yourself:
I guess i can keep him
I guess i can keep him

I guess i can keep him
I guess i can keep him
