

The Last Picture Show in Zion

Local H

There's no more movies in my town
They shut the place up and tore it down
Another hole in a road of holes
Don't think I'll ever go back home There ain't no ghost in your ghost town
There ain't no ghost in the sky
I'll light the fire and a lot of smoke
Yeah white boy, please, it's a joke They shut the show down in my town
That [?] tore it down
The many clan tragedy
There's nothin' out there that they aim to see There ain't no ghost in your ghost town
There ain't no ghost in the sky
I'll light the fire and a lot of smoke
Yeah white boy, please, it's a fuckin' joke
Well there ain't no ghosts in your ghost town
There ain't no ghost in the sky
There ain't no ghosts in your ghost town
There ain't no ghost in the sky Well I took the bottle and I
I brought that plane right out of my life Well there ain't no ghosts in your ghost town
There ain't no ghost in the sky
There ain't no ghost in the sky
There ain't no ghost in the sky
There ain't no ghost in the sky
There ain't no ghost in the sky Well there ain't no ghosts in your ghost town
Ain't no ghost in the sky
There ain't no ghost in the ghost town
Ain't no ghost in the sky
Well I took the bottle and I
I brought that plane right out of my life Yeah there ain't no ghosts in the ghost town
There ain't no ghost in the sky
There ain't no ghost in the sky
There ain't no ghost in the sky
There ain't no ghost in the sky
There ain't no ghost in the sky
