Judas

Reveille

Gotta learn to practice what you preachCan't understand, guess I'll paraphrase
Now, allow this spark, set the mic ablaze
Because all my rage just builds inside
There's no place to run and no place to hideNow, I gotta revive, gotta resurrect
'Cause we can't survive without an intellect
Check in retrospect what's ahead looks bleak
Take away my name, send me up the creekAnd don't attempt to repent, now you had your chance
Mask is on, you're in the blind man's danceYou gave me your word you lying hypocrite, fuck you
Hypocrite, fuck you, yeahWake up, wake up, it's your wake up call
Now the imperious leaders of our heavens fall
We gotta drop the ball on the gates below
Because what you reap is what you'll sowYou gotta let them know, gotta make them pay
It's the hate upon which you'll pray
Now, I'm breaking away 'cause I've figured you out
So now your number's up but don't count me out
You had your chance, you lost your chance
Now that I see you're in the blind man's danceYou gave me your word you lying hypocrite, fuck you
Hypocrite, come on, bring that bass inGotta learn to practice what you preach
Gotta learn to practice what you preachGotta learn to practice what you preach
Gotta learn to practice what you preach
Gotta learn to practice what you preach
Gotta learn to practice what you preachYou welcome me with warmful hands
You build me up just to break me down
A tear collects and forms deep within
Now trapped inside I gladly drown
A drop of water is turned to ice
Your satisfaction at my expenseNow at my timely sacrifice
With truth upon my dying breath
Judas, Judas, Judas, Judas, Judas, JudasBeneath your eyes lie the mind of a hypocrite
Beneath your eyes lie the mind of a hypocrite
Beneath your eyes lie the mind of a hypocrite
Beneath your mind, JudasGotta learn to practice what you preach
I'm breaking away 'cause I've figured you out
Gotta learn to practice what you preach
Now your number's up but don't count me outGotta learn to practice what you preach
I'm breaking away 'cause I've figured you out
Gotta learn to practice what you preach
Now your number's up but don't count me outGotta learn to practice what you preach
Gotta learn to practice what you preach
