# Suffer

## Staind

Suffer
Suffer
SufferThe more you see the more you do
The television's feeding you
With what you wanna hear, anger and fear
Because you sufferThe hate you feel won't go away
You're all programmed to feel this way
To live another day within a world
That loves to sufferSufferAnd then I come to find everything's okay
Seen this all before but that was yesterday
Try to walk right through the messes that I've made
Just let me enjoy the life here that I've madeI've tried to give this all to you
Can't take anymore to do
With this, it hurts inside, I know why I hide
'Cause I sufferSufferI tried to keep it all inside
Didn't leave me too much pride
I forced it all down inside, forced myself
To make me sufferSufferAnd then I come to find everything's okay
Seen this all before but that was yesterday
Try to make it through the messes that I've made
So I can enjoy the life here that I've madeAnd then I come to findAnd then I come to find everything's okay
Seen this all before but that was yesterday
Try to walk right through these messes that I've made
Just tryin' to enjoy the life here that I've
