

# Promise

## Krezip

Sometimes, somewhere  
you try to hide your mind for good  
You know it ain't fair  
but you're just misunderstoodNow try, just try to say  
What's on your mindChorus  
Promise that you will say  
Promises made so I'll just wait  
Promise that you will tell meSo you took it on, so you took it home  
And there we go again  
So you took it on and there I tried to see  
why this is not meI'll try, I'll try to see  
What's on your mindChorus  
Promise that you will say  
Promises made so I'll just wait  
Promise that you will tell Why don't you know, why can't you see  
That's it's not what it's supposed to be  
Just what you are trying to be for meknow, see  
You're trying to make it right for me  
Trying to see what it should be, for meChorus  
Promise that you will say  
Promises made so I'll just wait  
Promise that you will tell me
