

Free Myself

The Phoenix Within

Free Myself
By: Omar Feliciano

Verse 1:

This empty institute is nothing more than a trap
My fevers rising yeah my eyes they seem to fade into black
They quickly strap me down. The doctor turns and sayâ€™s heâ€™s figured it out

Pre-chorus:

He said my heart is drenched with all the wrong intentions in life
He said Iâ€™m ruined, yeah Iâ€™m sick, No I should never be touched
Their hands they tremble at the thought of being left with me. Iâ€™m going to burn it down

Chorus:

Come on, come on, come on, come on lets go
Iâ€™m going to be the one to come and tear you down
Nothing I ever do is ever good enough
Trying my best for what, Iâ€™m just letting you down.

Verse 2:

This holy institute is nothing more than a gag
My bodyâ€™s aching yeah my bones they seem to break and contort
They quickly pray for me, the priest he turns and says just figure it out

Pre-chorus:

He said my soul is plagued with all the vile intentions in life
He said Iâ€™m cursed, because Iâ€™ve sinned, no I can never be helped
Their faith it crumbles at the thought of being left with me. Iâ€™m going to burn it down

Bridge:

Iâ€™ll free myself from all of this
And I will find the strength to conquer it
