The Last To Know

Color Me Badd

Yeah, yeah, uh, oh baby, yeah
Where does love go when you're not in love?
How does it feel when nobody wants it?
Tell me does it float around like a little lost cloud
When a heart is not its home?
What does love do, when it's not being used?
Feeling like you just don't get enough home
Is it laying awake in the middle of the night
Thinking about what went wrong?
'Cause when I look in your eyes it's just not there
And when I hunger for affection, the cupboard is bare
I don't know why I keep hanging on
When loves got the message then its already gone
Why am I always the last to know?
Tell me why is it always me alone
Still dancing when the party's over?
Why am I always the last to see?
Just a fool who believes ,you're still in love with me
Even love can see it's over
Always the last to know, oh, yeah, baby
What do I do till I'm back on my feet?
Do I hang around and try to pretend
That I'm really over you and it won't be long
Till love says it's my turn again?
'Cause when I look in your eyes it's just not there
And when I hunger for affection, the cupboard is bare
I don't know why I keep hanging on
When loves got the message and it's already gone
Why am I always the last to know?
Tell me why is it always me alone
Still dancing when the party's over?
Why am I always the last to see?
Just a fool who believes, you're still in love with me
Even love can see it's over
Always the last to know
Oh, the next time I fall
(Next time I fall)
I'll be takin' my time
Till I know, her love is mine

Why am I always the last to know?
Tell me why is it always me alone
Still dancing when the party's over?
Why am I always the last to see?
Just a fool who believes you're still in love with me
Even love can see it's over
Why am I always the last to know?
Tell me why is it always me alone
Still dancing when the party's over?
Why am I always the last to see?
Just a fool who believes you're still in love with me
Even love can see it's over
Always the last to know
