

Bring It Back To Me

[Martin Luke Brown](#)

And there's a stirring in this head of mine
I can't find the things I'd known
And there's a shadow where I used to shine
That tries to hide behind the smoke Through the storm, angels sleep
When I'm miles from home, counting days and weeks
If I'm never lost in your dreams
When I lose my heart, bring it back to me
Please bring it back to me Like a feather never on the ground
I carry on this empty road
Who do you follow when there's no one else around you?
Tell me where I need to go When I'm in the den, a lion's roar
When I need to fight, be my shield and sword
Cause if I'm never lost in your dreams
When I lose my heart, bring it back to me
Please bring it back to me
