

You Ain't Down Home

[Julie Roberts](#)

You know all the right people
You wear all of the right clothes
You got a snappy little sports car
All your own You got the cool conversation
On your high tech telephone
But you got one little problem, baby
You ain't down home You ain't down home
Where the people got their feet on the ground
Down home
Where there's plenty of love to go 'round You got the cool conversation
On your high tech telephone
But you got one little problem, baby
You ain't down home You got a brand new Jacuzzi
All your credit cards are gold
There ain't a high class place in town
Where you ain't known You make it all look impressive
Yeah, you put on quite a show
But you got one little problem, baby
You ain't down home You ain't down home
Where the people got their feet on the ground
Down home
Where there's plenty of love to go 'round You make it all look impressive
Yeah, you put on quite a show
But you got one little problem, baby
You ain't down home You make it all look so impressive
Yeah, when you're showin' all your dough
But you got one little problem, baby
You ain't down home There's just one little problem, baby
You ain't down home
