

# I Wanna Stay Home

## Jellyfish

When you need someone  
And there's no one there  
There is always the nine o'clock train  
To take you out somewhereI take the train in town  
Like I did for years  
There is only seven more blocks  
I could walk from hereI wanna stay home  
I wanna stay home right here  
I wanna stay home today  
I wanna stayIt's only six o'clock  
When my day begins  
There is always my alarm clock  
To wake me up againI wanna stay home  
I wanna stay home right here  
I wanna stay home today  
I wanna stayWhen I realize the weight  
That's firmly on my shoulders  
On my shoulders  
I just try and find the place  
I can take a walk on my blind side  
On my blind sideWhen these memories fade  
In my ripe old age  
Please remember my dearI wanna stay home  
I wanna stay home right here  
I wanna stay home today  
I wanna stayI wanna stay  
I wanna stay  
I wanna stay  
I wanna stay
