

Faden Away

7 Days of Funk

Advisory - the following lyrics contain explicit language:

Girl you've got me faden away
And I can't go another day
You make it hard to stay away
Girl you've got me faden away
Girl you've got me faden away
Ain't no other words to say
You make it hard for me to stay
Girl you've got me faden away
Faden away In my mind, it's all about you
I don't know what to do
'Cause you have got me confused
We talking on the phone
We fussing fight you 'bout that lightening
I just wanna love you right, love you right Girl you've got me faden away
And I can't go another day
You make it hard to stay away
Girl you've got me faden away
Girl you've got me faden away
Ain't no other words to say
You make it hard for me to stay
Girl you've got me faden away
Faden away Make time, make love, that's what we make
Looking nowadays, looking like it's gonna fade
See me, will you see here G soul
If he lose baby he gonna gain another dough
What a brother know, keep it on the low
That's what my grandma said it suppose to go
Feel the same, we toast and post it
And if it all work soft then we casper the ghost
Me and damn phone we capture the phone
Collusion, illusion, set it all foe
Plan with me, for your best, let it all go

The beach and the wind you blow Faden away

And I can't go another day

You make it hard to stay away

Girl you've got me faden away

Girl you've got me faden away

Ain't no other words to say

You make it hard for me to stay

Girl you've got me faden away

Faden away Faden away

And I can't go another day

You make it hard to stay away

Girl you've got me faden away

Girl you've got me faden away

Ain't no other words to say

You make it hard for me to stay

Girl you've got me faden away

Faden away It's so hard to stay with you girl

It's so hard to stay with you girl

And even harder to play with you girl

It's so hard to stay with you girl

And even harder to play with you girl

Faden away

Faden away

Faden away

Faden away

Faden away

Faden away

Faden away
