When I Rule the World

Liz

Rule the world (by liz)I rule the world, I-I rule the world
When I rule world, I-I rule the world
I rule the world, I-I rule the world
When i rule world, I-I rule the worldWhen I rule the world, then I'm go make you sweat
Dog collar 'round your neck
On your knees and scrub the deck
Oh there's a spot over there
So I'll drag you by the hair
so scrub it, rub it, whip it, dry it; till I tell you to stop.When I'm on the throne, it's a total freak zone
You can call me mommy and I'll throw a dog a bone
Better bite on that bone or you're never going home
So bite it, break it, hit it, lick it; till I tell you to stop.When I.....
(when I rule the world, I-I rule the world)
Rule the world.....
(when I rule the world, I-I rule the world)
When I.....
(when I rule the world, I-I rule the world)
Rule the world, the world, the world
(when I rule the world, I-I rule the world)When I rule the world, then you're the little girl
You should do as I say, cause thing are gonna be my way
When I rule the world so get down on your knees
Better do as I please, until I tell you to stopWhen I rule the world, then I'm gonna make you work
(Ring, ring) Stay alert
Keep on pushin' till it hurts
Oh no look who's sorry
now they're answering to me
so scrub it, rub it, whip it, dry it; till I tell you to stop.When I wear the crown, all the people bow down
I can be your daddy and you're gonna make me proud
If you don't you'll be bound, then thrown in the dog pound
So bite it, break it, hit it, lick it; till I tell you to stop.When I rule the world, then you're the little girl
You should do as I say, cause thing are gonna be my way
When I rule the world so get down on your knees
Better do as I please, until I tell you to stopWhen I.....
(when I rule the world, I-I rule the world)
Rule the world.....
(when I rule the world, I-I rule the world)
When I.....
(when I rule the world, I-I rule the world)
Rule the world, the world, the world

(when I rule the world, I-I rule the world)When I rule the world, then you're the little girl
You should do as I say, cause thing are gonna be my way
When I rule the world so get down on your knees
Better do as I please, until I tell you to stopWhen I rule the world, so things are gonna be my way
till I tell you to stop
