Disturbed

You are enemy
You are my hated enemy
I am enemy
A number one rated enemy I'm a labeled enemy
I am your mortal enemy
My actions, enemy
Make me your bitter enemy All the world around
Enemy, they're tearing up the ground
Enemy, they're drawn in by the sound
Enemy, enemy
I must eliminate my enemy Enemy, enemy
Enemy, enemy
I must eliminate my enemy Your people, enemy
My people's hated enemy
What are you, enemy?
Though one created enemy Terminate the enemy
Eradicate the hated enemy
I am an enemy
My very greatest enemy All the world around
Enemy, they're tearing up the ground
Enemy, they're drawn in by the sound
Enemy, enemy
I must eliminate my enemy Enemy, enemy
Enemy, enemy
I must eliminate my enemy You try to tell me that you love life
Then find another way to kill life
You try to tell me that you love life
Then find another way to kill life You try to tell me you love life
Then find another way to kill life
You try to tell me that you love life
Then find another way to kill Wanting, love life
And needing, kill life
Wanting, love life
And needing, kill life Enemy, enemy, enemy, enemy
Enemy, enemy, enemy, enemy You try to tell me that you love life
Then find another way to kill life
You try to tell me you love life
Then find another way to kill Enemy, enemy, enemy, enemy
