Black Heaven

Maysa

Shimmer in my dream, my vision I can't clear
Surrender to the memory of when you were here
Longing is so strong, power makes me weak
When I say the words, but I can barely speakI am lost, I am lost but the night is guiding me
You're darkness and sweetness combined so perfectly
Two bodies in motion are caught in the gravity
Coming down from the sky and set my spirit freeKnowing oasis in my mind
Feels like a dream that froze in time
Make a wish from stars that shine in my
Black HeavenThe love of my life I hope to find
Anything that will get me there on time
Were the sky, the earth collide in my
Black HeavenEden's far away but I make it here today
Bless my eyes with beauty, make the world okay
Melody is low but the angels were so sweet
I watch the flowers grow so gently 'round your feetI am lost, I am lost but the night is guiding me
You're darkness and sweetness combined so perfectly
Two bodies in motion caught in the gravity
Coming down from the sky and set my spirit freeKnowing oasis in my mind
Feels like a dream that froze in time
Make a wish from stars that shine in my
Black HeavenThe love of my life I hope to find
Anything that will get me there on time
Were the sky, the earth collide in my
Black HeavenI am lost, I am lost but the night is guiding me
You're darkness and sweetness combined so perfectly
Two bodies in motion caught in the gravity
Coming down from the sky and set my spirit freeKnowing oasis in my mind
Feels like a dream that froze in time
Make a wish from stars that shine in my
Black HeavenKnowing oasis in my mind
Feels like a dream that froze in time
Make a wish from stars that shine in my
Black HeavenKnowing oasis in my mind
Feels like a dream that froze in time
Make a wish from stars that shine in my
Black HeavenThe love of my life I hope to find
Anything that will get me there on time
Were the sky, the earth collide in my

Black HeavenKnowing oasis in my mind
Feels like a dream that froze in time
