

Long Way Home

[Nick Howard](#)

Oh, it's cold and lonely here
Here in this telephone booth
There's three sides to every story, baby
There's yours and there's mine and the cold, hard truth
I think there's something missing 'round here
I don't know where it's gone
But it's a long way back home
The heat don't work
The toaster don't work
And the car don't work
And I guess I know why
This house don't work

And this dream don't work no more
And lover, neither do you and I
I fall asleep with the colors flying
Over sand and foam
But it's a long way back home
I know your heart is breaking
Maybe my heart's breaking, too
And it's a long way back home
It's a long way back home
It's a long way back home
