

Up For Air

Alpine

You're the one who's gonna make me lose control
Breath desire hard and cold into my soul
When did you learn to say "Hello"?
When did we forget - get to take it in?
How long till we come up for air?
When we have it now
You're the one who's gonna make me lose control
Breath desire hard and cold into my soul
You don't know me, I don't know you
You're the one who's gonna make me lose control
Closing my eyes, I hold my breath
Couldn't you try, try to turn me on?
Should I fall back and let you go?
When we have it now
You're the one who's gonna make me lose control
Breath desire hard and cold into my soul
You don't know me, I don't know you
You're the one who's gonna make me lose control
(We are unending)
