

Rich Kids

Rich Kids

I'll tell you somethin,
I think that you should know
There aint much that I care for
Ah but even so
The guys around me, they astound me
They think things very clear
And so are those who stand in line
I have no fear I'm talkin bout rich kids
The guys too much for you
They got so much feelin
And somethin special to do Because they're rich kids
You had better - beware
The thing with rich kids
You see is - They're all there So when you say you're a rich kid
And I aint kiddin you
Oh it's too much
To stop the rich. So true It satnds to reason, you don't make it
You just got no idea
Although you lied and tried and tried in life
You realise it comes for here
FROM THE HEART! I'm talkin bout rich kids
The guys too much for you
They got so much feelin
And somethin special to do And because they're rich kids
You had better beware
The thing about rich kids
Is - They're all there Rich kids. Rich kids. Rich kids
BEWARE!
