Why We Live Here

Tyler Farr

Got an alright house and a pretty nice yard
A screen door dog that stays on guard
Got a buddy up the road that's got my back
'Round here it ain't hard to find folks like thatGot a gun and a Bible by my bed
Try to live by the words in red
I ain't got a lot but I got enough
By God I believe, in God we trustThat's why, why we live here
Damn right, we ain't going anywhere
Home of the brave, baseball, and cold beer
It's pretty clear
That's why we live hereRight now there's a man serving overseas
Seeing things he wished he didn't see
Picture of his wife tucked in his vest
Fighting a fight we ain't finished yetThat's why, why we live here
Damn right, we ain't going anywhere
Home of the brave, baseball, and cold beer
It's pretty clear
That's why we live here, yeahWhether your road
Is dirt or paved
Red, white, and blue
We're all the sameThat's why, why we live here
Damn right, we ain't going anywhere
Home of the brave, baseball, and ice cold beer
It's pretty clear
That's why we live here
