Suffering In Ecstasy

Six Feet Under

Suffer inside myself there is no hope
In this grave bottomless
The deepest depths an empty pit
No way to live deadIt's killing me this deadly plague
Poisoned blood runs through my veins
Finding pleasure within the pain
I'm suffering a step away from the edge one more rushAll I need is a harder push
There is no cure my infection is self inflicted
I'm suffering in ecstasy
Slowly dying inside my bodyLocked away with no escape
Finding pleasure within the pain
A step away from the edge
All I need is a harder pushThere is no cure my infection is self inflicted
It's killing me this deadly plague
Poisoned blood runs through my veins
Finding pleasure within the pain, I'm sufferingSuffer inside myself there is no hope
In this grave bottomless
The deepest depths an empty pit
No way to live deadA step away from the edge
One more rush all I need is
A harder push there is no cure
My infection is self inflictedI'm suffering in ecstasy
Slowly dying inside my body
Locked away with no escape
Finding pleasure within the pain
