

# It's On!

## Korn

Come on Save some for me, it's what I like  
I wanna play, you know it's time  
Something is calling  
I can't keep from falling Come on  
It's on Now see it's my fault  
Angels stabbing me inside  
Nothing changes  
Just rearranges for me this time Once I cave in, what can I fight?  
I can never win, my self I don't like  
I don't like, I don't like, I don't like  
Something is calling, I can't keep from falling Come on  
It's on You see it's my fault  
Angels stabbing me inside  
Nothing changes  
Just rearranges for me this time This time, this time  
For me inside, put me inside  
Hold me this time, put me inside  
Come on, it's on Come on, it's on  
Come on, it's on  
Come on, come on  
It's on
