Alter Bridge

Never be afraid
No, never fear at all
But I must be on my way
But you must carry onBut if I do not make it back again
Please know that I have loved you till the endAnd one last thing before we say goodbye
Never say dieHeroes slip away
Your heroes come and go
But I hope that you can face
Your shadows on your ownI know you fear the end is gonna come
But you, my friend, you've only just begunAnd one last thing before we say goodbye
Never say die
Don't let them keep you down
Hold your head up high
Never say dieSomewhere in the distance
It's calling me home
But in case I don't see you again
Always care, be resilient
Never let weakness show
Keep fighting to the very endAnd one last thing before we say goodbye
Never say die
Don't let them keep you down
Hold your head up high
Never say die(Solo)
