Tranewreck

Stavesacre

Tried to set me up
Not that I deny my carnal mind
But when I was down you couldn't be found
But to assist in my self-inflicted painI had enough
I gotta get on while
There's still life left in meI see the lies, I see the lies
And I think we've both been used
Wasted time and wasted life
And what with what we've been through?Better off
Even our best intentions
Can destroy usI see the lies, I see the lies
And I think we've both been used
My soul divides in inner riots
Oh, what I would do for youAnd you and I, and you and I
Divided, on display
Fare thee well, my heart goes with you
Till we meet again
