Girl Problem

Her Space Holiday

Here is the point where I fall apart
For the second time in a week
It could be from all those chemicals
That I pump into meYou have been gone for what feels like
The longest winter break
It's just three days but it's so much more
Than I can really takeI've got a girl problem
I've got a drug problem
And I don't want to solve them
They sit right where I want themAnd if I take enough
I won't miss you so muchAnd I will always think of you
(I will always think of you)
As someone that I love
And I will always think of you
(And I will always think of you)
As someone that I loveAnd I will always think of you
(I will always think of you)
As someone that I love
And I will always think of you
(And I will always think of you)
As someone that I love(I will always think of you)
As someone that I love
And I will always think of you
(And I will always think of you)
As someone that I loveAnd I will always think of you
(I will always think of you)
As someone that I love
And I will always think of you
(And I will always think of you)
As someone that I love
