

# Ride Your Bike

## Full Service

Get up in the morning and I start the routine  
I'm on my way to get in line  
Traffic's an animal that fell asleep  
But still it delivers on time

Ride your bike  
Tie your shoes up  
Fly towards the sky  
And try, try

I did today the things I did last week  
And I don't even think I mind  
The surgeon general says it's hazardous to breath  
I'd have another cigarette but I can't see

You're not my enemy  
At least I try to believe  
But then again maybe  
Maybe you are  
Maybe you are
