

# Lost In You

## Sugarcult

Six days went by  
Trying to forget her face  
It was you and i  
We were to young for these games And all the pictures that I kept  
And all the things I should have said  
It was you and i  
But mostly me Lost in you  
And I can't find myself again  
Lost in you  
And I can't find myself again Six weeks went by  
Still pretending that I'm fine  
It was you and i  
Holding back what's on our minds And all the things I should have said  
And all the letters left unsent  
It was you and i  
But mostly me Lost in you  
And I can't find myself again  
Lost in you  
And I can't find myself again Six months went by  
I almost forgot your face  
Till they played that song tonight  
The one we used to hate Lost in you  
And I can't find myself again  
Lost in you  
And I can't find myself again Lost in you (I'm lost in you)  
And I can't find myself again  
Lost in you (I'm lost in you)  
And I can't find myself again Again  
Again
