

Head For The Barricade

Limp Bizkit

Fight, fight, fight, fight
Fight, fight, fight, fight
Sometimes you gotta fight for your right when you're
Not sure you're in a fight for your life, right?
If you ain't packin' any tactics
You might get your ass kicked
Even if you are a little knuckle head
I'm kinda sick of being aggravated, I'm glad I'm hated
I guess I'm doin' somethin' right
That's what happened back in Columbine
You gotta know when to stop and don't go over the top
'Cause there's a chamber deep inside the brain
That's covered with chains, so don't be shakin' 'em loose
And if ya do, I'd be runnin' for the hills
'Cause I'm ready to rock and now I'm playin' for real
I gotta fight fight, you'd better watch out
When my adrenaline kicks, I gotta fight, fight
It's too late you already been hit damn
Stick 'em stick em'
Stick em ha ha ha stick em
Stick em' stick em'
Yeah, head for the barricade
Stick 'em stick em'
Stick em ha ha ha stick em
Stick em' stick em'
Yeah, head for the barricade
This world can make you sick to your stomach
So I put on my headphones, listen to the deftones
It's gettin' crowded in my spaceship
Livin' in a dream, runnin' from a hate machine
You know it's such a drag when there's people talking down to ya
Such a drag thinking everything sucks
Do ya walk away with the spit on your face?
Or do ya draw the line just to give 'em a taste?
'Cause I know its never gonna end
If it happens again I'm going straight for the throat
Another note, don't forget your had a chance
Now I am off the side lines and ready to dance
I gotta fight fight, better watch out when my adrenaline kicks

I gotta fight fight, it's too late you already been hit damn

Stick 'em stick em'

Stick em ha ha ha stick em

Stick em' stick em'

Yeah, head for the barricade

Stick 'em stick em'

Stick em ha ha ha stick em

Stick em' stick em'

Yeah, head for the barricade

If you got the guts

Head for the barricade

Then come on down

Head for the barricade

If you got the guts

Head for the barricade

Then come on down

Head for the barricade

Fight, fight, fight, fight

Get on get on

Fight, fight, get on, fight, get on

Fight, head for the barricade

I ain't playin' around

Head for the barricade

I ain't playin' around

Head for the barricade

Stick 'em stick em'

Stick 'em ha ha ha stick 'em

Stick 'em stick em'

Yea, head for the barricade

Stick 'em stick em'

Stick 'em ha ha ha stick 'em

Stick 'em stick em'

Yea, head for the barricade
