

# Nothing to Lose

## Ten Foot Pole

As we ride up the mountain  
I can hear the young ones brag  
Just how much they drank last night  
And all the little girls they've had  
There's nothing that I'd like more  
Than to teach humility  
I'll leave these little bastards in the trees  
As we fly down the mountain  
I can tell it will be close  
The new kids have that hungry look  
My knees are feeling old  
I can feel it getting squirrely  
As I push for a little speed  
I think about my Josephine  
And the money that we need  
Last year a friend of mine  
Hit a little tree  
I keep on saying to myself  
It's not gonna happen to me  
He never walked the same again  
How long till my luck runs out?  
No fear, no doubts  
I never used to worry  
About all the little things  
That could go wrong  
No fear no pain  
I just have to ignore the brain  
Ust go on pretending  
I have nothing to lose  
The hairpin turn  
I see my chance  
To slide right through the gap  
One mistake, we'll all be gone  
I never used to think of that  
I hit the brakes and pull aside  
I feel the new kids sneer  
But if they're smart  
They'll do the same thing  
In a couple years
