## Heaven & Hell

Advisory - the following lyrics contain explicit language:

I am anger  
Under pressure  
Locked in cages, a prisoner  
The first to escape I am wicked  
I am legion  
Strength in numbers, a lie  
The number is one I, I, I  
Everything that I see is for me Yes, I am giant  
I'm a monster  
Breaking windows in houses  
Buildings of glass Rebel, rebel  
Holy outlaw  
Ride together, don't try it  
The power's in one I, I, I  
I am standing alone  
But I can rock you  
I, I, I  
On the edge of the blade  
But the knife can't cut the hero down I am virgin  
I'm a whore  
Giving nothing, the taker  
The maker of war I'll smash your face in  
But with a smile  
All together you'll never  
Be stronger than me I, I, I  
Right here on my own  
But I still rock you  
I, I, I  
Don't follow behind  
Just leave me on the outside I, I, I  
I am standing alone  
But I can shock you

I, I, I  
On the edge of the blade  
But no one makes the hero bleed No, no, no  
No, no, no I am hunger  
(No, no, no)  
Feed my head  
(No, no, no)  
All together you'll never  
Never make the hero bleed  
(No, no, no)
